

## SIP Trunking Fast, Scalable, Affordable, and Available Everywhere

SIP Trunking is the solution your business is looking for to enable your unified communications (UC) capabilities while simplifying your network and reducing expenses.

AireSpring delivers the flexible connectivity options you need, allowing on-demand scalability and a secure connection to your platform of UC services.

You get the quality and assurance of our fully managed, owned and operated advanced IP network, which delivers high definition (HD) audio and superior service without the costs associated with legacy technologies.

### FEATURES

- Flexible and competitive pricing options for solutions that meet your individual needs
- Full suite of advanced communications features available, including DIDs, TollFree, e911, international calling, directory listing, and number porting
- Rapid activation gets you up and running faster
- Fewer circuits, less interfaces, greater efficiency, and more cost savings
- Effortlessly scalable instantly or over time, so you only pay for what you need
- Enjoy the benefits of AireSpring's carrier-grade network that processes over 30 billion calls per year
- Integrated Transport Layer Security (TLS) and Secure Realtime Transport Protocol (SRTP) encryption options available to protect your communications
- High Definition (HD) audio support

**Contact an AireSpring authorized partner to learn more about AireSpring SIP Trunking and see how it can enhance your business communications.**

## TOP BENEFITS OF THE AIRESPRING ADVANTAGE

### Fully Managed Network with QoS

All the features in the world won't make a difference if your communications services are dependent on a public internet connection beyond your control. Even an SLA (service level agreement) cannot ensure or guarantee quality and reliability, or prevent latency across the public internet, which can result in poor call quality and unreliable service. We provide service over our fully managed, owned and operated IP network with end-to-end Quality of Service (QoS). (With AireSpring Managed Connectivity)

### Eliminate Finger Pointing Between Providers

By having all services delivered by a single vendor on a fully managed network, you avoid the finger pointing and blame game that occurs when you have cloud communications services delivered by a different vendor than your connectivity. (With AireSpring Managed Connectivity)

### Largest Available Coverage

From Somerset, CA to Madill, OK to Moravian Falls, NC to New York City, we cover more locations than anyone else on our network with the largest combined footprint.

### Free On-Premises Enterprise-Grade Router/Gateway

AireSpring provides a fully managed enterprise-grade router/gateway to manage VoIP and Data traffic. (Included with AireSpring Managed Connectivity)

### Reliable and Diversified Network

AireSpring's geo-redundant network provides true network diversity and supports disaster recovery options, allowing you to ensure business continuity.

### Online Access via our AireCare™ Customer Portal

Our AireCare online advanced billing reporting portal gives you 24/7 access to your billing and service details.

### Free 24/7 Proactive WAN Network Monitoring Service

AireSpring's Managed Connectivity services include free 24/7 professional monitoring with the AireNMS network monitoring service. Our NOC proactively monitors your network to pinpoint and fix potential problems before they affect your business. (With AireSpring Managed Connectivity)

### Personalized Service

We back you up with outstanding customer service, featuring one bill and a single point of contact for all your service needs.

### Escalation List Up to Our CEO

We stand behind our service 100%! In fact, we're so committed to ensuring complete satisfaction that we provide all of our customers with an escalation list giving you access to our executive management all the way up to our CEO.

*AireSpring has received numerous industry awards for "Product of the Year," "Best Telecom Deal," "Members Choice Top Reseller," "Best in Show," and "Top Channel Program."*
