Go beyond 'check the box' security training

Cybersecurity training is now a must-have to stay compliant and secure. Infosec IQ delivers thousands of awareness training resources to prepare employees to detect, report and defeat cybercrime. Infosec Skills technical training upskills and reskills cybersecurity talent, including client and in-house employees!

Do business your way

We support monthly and annual billing and pay commissions on qualified referrals. Our partners represent top MSP/MSSPs, resellers, referral partners, distributors, system integrators and group purchasing organizations.

Set your level of support

If you directly manage your clients, we'll interface directly with you. If you're a traditional reseller, we'll handle onboarding, implementation, account health and support for you.

Work with a dedicated team

Partner with your region's dedicated channel account manager and client success manager. Infosec's channel team also includes marketing, program management and implementation.

Grow your business

Add Infosec to your product portfolio, and deliver a premium suite of award-winning training resources to your clients. Take advantage of Infosec Skills to enhance your service offerings and qualify for projects with the DoD and other federal contractors with certification requirements. Our team will give you the sales and marketing support you need to drive revenue as we build a lasting partnership.
