

# Cyber Immunity for SMBs

Deliver all-in-one network protection and peace of mind in just 15 minutes.

## Secure, Remote Access

Timus is the only MSP cybersecurity solution designed for SMBs that delivers identity-based protection, a dynamic firewall, Zero Trust Network Access, and peace of mind, in one solution.

## MSPs Love Timus

MSPs love our user-friendly Partner Portal and how it streamlines implementation, management, and support. Get SMB clients started in as little as 15 minutes and make sure they are protected wherever they are.

*"Our customers don't have to worry about their remote workforce anymore."*

**Ali Johnston**  
President, Bel Tech Services

Most Innovative Company

Cybersecurity as a Service

Zero Trust Security

## 3X Gold Winner

Timus Networks has received multiple cybersecurity awards, 8 awards in 2023 alone, including three Gold at Cybersecurity Excellence Awards.
